### General provisions for Irrigation and Sprinkler Systems:

1. A city registered irrigation contractor must perform installation of the system and pull a permit for each job in the City of Collinsville.
2. The irrigation and sprinkler system shall be installed according to the 2015 International Plumbing Code. The backflow prevention device should be installed according to the manufacturer's suggested installation instructions. If those instructions are not provided to the city, the device will be inspected according to the 2015 International Plumbing Code and the City's Backflow Prevention Ordinance.
3. A licensed backflow device tester shall test the backflow prevention device at the completion of the installation and annually with the results being filed at City Hall. The property owner is responsible for all costs associated with testing of device and results filed after the annual due date shall be subject to a late fee. A backflow test report must be submitted to City Hall prior to initial inspection.
4. An irrigation and sprinkler system may no be placed on a water service line smaller than  $\frac{3}{4}$  inch, depending on the number of sprinkler heads. If the existing water service line is smaller than  $\frac{3}{4}$  inch, then a tap must be made to the water main.
5. Irrigation and sprinkler systems may be attached ("Y" off) to existing 1-inch water service lines.
